1. Read
the whole dossier
before opening
any assistant
2. Ask and critique
structured
prompt, then a
three-line critique
3. Decision note
every claim traced
to the dossier
4. Visual
a diagram made
from the note
5. Optional
a second tool,
then a comparison
payload acts
the attached file
carries hidden text and
misleading metadata;
the assistant answers
YES
payload caught
select-all, read-aloud
and file properties
expose claims found
on no page; the answer
returns to NO
